Duncanville
City of Champions

DUNCANVILLE

The Perfect Blend of Family, Community and Business.

City of Duncanville

Kevin Hugman
City Manager

March 28, 2018

The Honorable Mayor and Members of the City Council
City of Duncanville
Duncanville, Texas

The Finance Department and City Manager's Office are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the City of Duncanville, Texas for the fiscal year ended September 30, 2017.

This report provides the City Council, City staff, our citizens, bondholders and other interested parties with detailed information concerning the financial condition and activities of the City of Duncanville. Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

To the best of our knowledge and belief, the enclosed data is accurate in all material respects, and is organized in a manner designed to fairly present the financial position and results of operations of the City as measured by the financial activity in our various funds. We also believe all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs are included.

Pattillo, Brown & Hill, L.L.P., Certified Public Accountants, have issued an unmodified ("clean") opinion on the City of Duncanville's financial statements for the year ended September 30, 2017. The independent auditor's report is located at the beginning of the financial section of this CAFR.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

CITY PROFILE

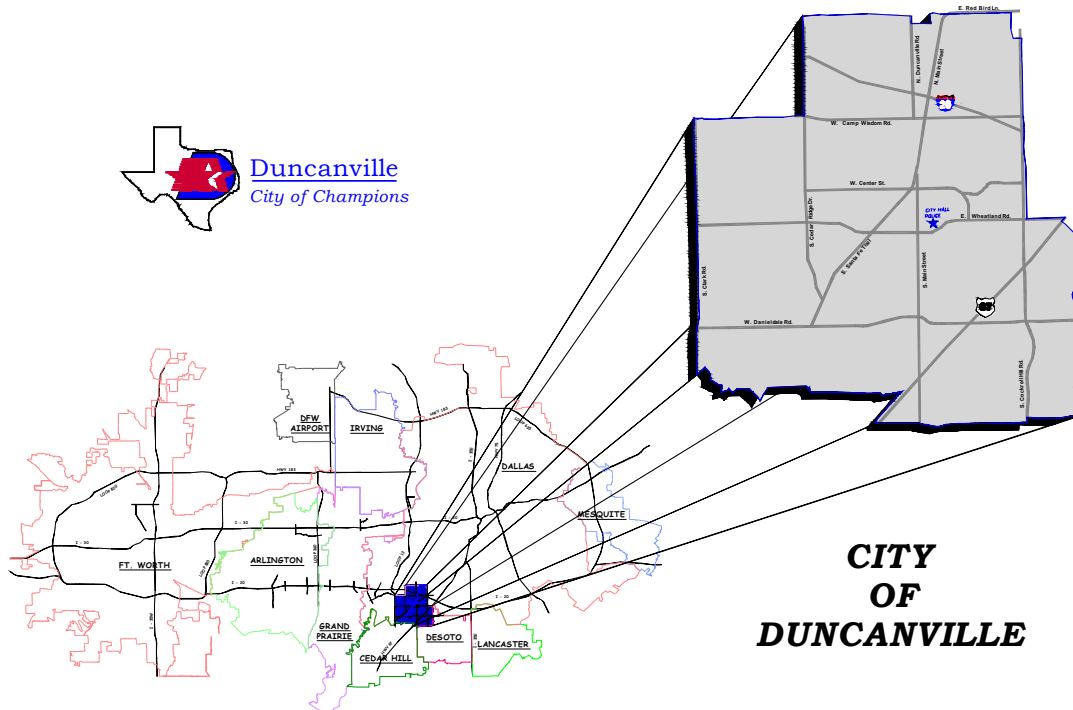

Location

Located in the Best Southwest portion of Dallas County, the City of Duncanville is situated approximately 20 minutes from Fort Worth and just minutes from downtown Dallas. The City covers approximately 12 square miles and is easily accessible from major interstate and highway systems in North Texas, including I-35 (the NAFTA Corridor), I-20, and Highway 67. The 2017 population for the City was 39,524 (Source: Suburbanstats.org).

The City is a political subdivision and municipal corporation of the State of Texas, duly organized and existing under the laws of the State of Texas, including the City's Home Rule Charter. The City was incorporated in 1949, and first adopted the Home Rule Charter May 5, 1962. The City operates under a Council/Manager form of government with a City Council comprised of the Mayor and six Council members, who enact local laws, determine policies and adopt the annual budget. The term of office is two years with the terms of the Mayor and two of the Council members' terms expiring in even-numbered years and the terms of the remaining four Council members expiring in odd-numbered years. The City Manager, appointed by City Council, is the chief administrative officer for the City and is responsible for the daily management of the City. The basic financial statements of the City include all government activities, organizations, functions and a discreet component unit (Duncanville Community Economic Development Corporation - DCEDC) for which the City is financially accountable as defined by the Governmental Accounting Standards Board (GASB). Based on these criteria, no other governmental organizations are included in this report.

Services Provided

The City provides necessary services while managing costs to deliver services through a rigorous budget and accounting process. Major services provided under general government and enterprise functions are: public safety (police and fire protection), emergency ambulance services, highways and streets, water and sanitary sewer utilities, health and social services, culture-recreation, library services, public improvements, planning and zoning, and general administrative services.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The City's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when services or goods are received, and liabilities are incurred. Accounting records for the City's utility funds, the Duncanville Fieldhouse, and other proprietary activities are maintained on the accrual basis. Individual line items are reviewed and analyzed for budgetary compliance. Personnel expenditures are monitored and controlled at a position level and capital expenditures (items over \$5,000 and having a useful life of three or more years) are monitored and controlled item by item. Revenue budgets are reviewed monthly.

Management of the City is responsible for establishing and maintaining internal controls that safeguard the assets of the City from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. The City also uses a third party to host an anonymous fraud hotline as an additional deterrent against loss and misuse of city assets.

All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City Charter provides that City Council adopt the annual budget prepared by City Management. This budget is reviewed by the City Council and is formally adopted by the passage of a budget ordinance. The City Manager is authorized to transfer budgeted amounts between line items and departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

Budgetary control has been established at the individual fund level. Monthly financial reports are produced showing budget and actual expenditures by line item and are available to all City departmental and divisional management and to others upon request. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation budget approved by the City Council. Budgetary control is maintained using an automated general ledger system that compares actual expenditures to the legally adopted appropriation in each line-item account.

As demonstrated by the statements and schedules included in the financial section of this report, the City sustains sound fiscal management.

ECONOMIC OUTLOOK AND FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Regional Economy

- The 2016 official estimate has the Dallas/Fort Worth Metroplex (DFW) at a population of 7,233,323. The Dallas-Fort Worth-Arlington MSA is, by population, the largest metropolitan area in Texas, the largest in the South, and the fourth-largest in the United States. (Wikipedia)
- As of 2016, Dallas–Fort Worth has been a magnet for corporate headquarters and major company operations, attracting 20 Fortune 500 and 39 Fortune 1000 companies. (Dallas Regional Chamber)
- Dallas-Fort Worth benefited from existing trade agreements, exporting \$8.8 billion to the North American Free Trade Agreement region and \$391 million to the Central American Free Trade Agreement region. (Dallas Regional Chamber)
- Texas added jobs at a 2.4 percent rate in 2017, ranking 4th in the nation; and projected job growth in 2018 is 2.8 percent. (Dallas Federal Reserve Bank)
- 97% of businesses in the DFW Region have less than 100 employees; and 14 companies made the Inc. 500 list, and a total of 160 companies were listed in the Inc. 5000 list. (Dallas Regional Chamber)
- DFW is home to an impressive group of foreign based subsidiaries with over 200 companies from 40 countries locating their U.S. headquarters or substantial operations within the region. (Dallas Regional Chamber)
- DFW has the 7th largest concentration of high-tech jobs in the United States. (Dallas Regional Chamber)
- The Dallas–Fort Worth region offers a variety of public and private schools, with robust programming in life sciences, engineering, and the arts. The University of North Texas at Denton, the University of Texas at Dallas, and the University of Texas at Arlington are among Texas’ seven “emerging research” universities and are currently expanding program capabilities and funding to become world class “tier one” research institutions, which are nationally recognized for the highest levels of innovation and academic excellence. UT Southwestern Medical Center is among the nation’s best in biology and biochemistry research, boasting countless clinical breakthroughs and innovations. (Dallas Regional Chamber)
- 82 Acute Care Hospitals and numerous other major medical centers with nearly 20,000 beds serve the DFW Region. (Dallas Regional Chamber)

Duncanville’s Position in the Region

Duncanville is known as a first-tier suburb, meaning it is one of the first suburban cities to have developed on the outer rim of Dallas. The bulk of the development activity took place during the 1960’s and 1970’s, leaving only a few small vacant tracts available and the City essentially a bedroom community (63% residential).

In keeping with our targeted growth, the re-development of Main Street is now in process, along with other rehabilitation projects in older shopping centers. A full study for the revitalization of Main Street has been completed utilizing the concept of New Urbanism, which involves higher density uses to help create a compatible live/work environment. In addition to the Main Street re-development plans, the City has developed a comprehensive plan, Destination Duncanville, which creates a vision for the city over the next 20 to 30 years to provide a framework for strategic and policy related decisions that are necessary to achieve that vision. To assist in managing changes that occur over the years, the comprehensive plan will provide direction on how to prioritize the City's response to the demands brought about by change and how to allocate the City's resources to deal with growth and redevelopment related issues.

In recent years, projects have been completed in older shopping centers including a complete renovation of Tom Thumb and Kroger Supermarkets, as well as the addition of Terry's Supermarket, ALDI grocery store, WinCo Foods, and Super Mercado Monterrey.

Duncanville has limited land available for new residential development and any new development is expected to be of higher density than what took place previously. Limited land availability also restricts the amount of new industrial and manufacturing facilities that can be built. However, Duncanville is still home to a diversified group of manufacturing and distribution firms. Major manufacturing industries within the city produce corrugated storage and filing boxes, bakery products, fabricated sheet-metal products, cabinets, doors, and frozen foods. The Duncanville Industrial Corporation is a major industrial park in the City. Two other large industrial parks, Redbird Industrial Park and Mountain Creek Business Park, are adjacent to the City.

In addition, the following reflects past, present, and anticipated progress of economic development activity in the City of Duncanville.

- The DFW area, including Duncanville, remains the distribution and financial center of the southwest with high tech industries, service industries, and trade and corporate headquarters providing a stable and diverse local economy.
- Duncanville boasts a strong industrial community that includes subsidiaries of companies like **Masco Cabinetry**, the largest U.S. manufacturer of kitchen and bath cabinetry.
- **DeFord's**, another strong industrial company, manufactures specialty doors and wholesale lumber and fixtures supplies.
- **84 Lumber Company** is the largest privately-owned building supply company in the United States. They expanded the Duncanville facility by 5 acres in 2015.
- **The Duncanville Fieldhouse** (a 95,000 sq. foot basketball/volleyball/multi-sport facility), converted from the original Dallas Stars Dr. Pepper ice hockey arena to a multi-sport facility in late 2009, draws people into the community from near and far for multi-state tournaments. The original facility which was built and owned by the Duncanville Community and Economic Development Corporation (DCEDC) was sold to the City of Duncanville in late 2010.
- **Pappadeaux Seafood**, which opened in 2003, continues their success in providing fine dining for area residents.
- In August 2007, **Best Western Inn and Suites** opened a flagship hotel on the southeast section of Highway 67 and Cockrell Hill. They continue to receive high performance ratings from the Best Western Corporate Offices.
- **The Hilton Garden Inn** opened September 1, 2005 offering a five-story, 142-room, 93,000 square foot hotel and conference center at the corner of Main Street and I-20. This facility provides businesses and guests with access to 14,000 square feet of conference rooms and meeting space.
- Two major highways (I-20 and US 67) cross through Duncanville's city limits allowing the City to enjoy the convenience of nearby **D/FW International Airport** (highest capacity commercial airport in the world), **Love Field Airport** to meet commercial passenger air transportation needs, and **Dallas Executive Airport** used entirely for general aviation purposes.

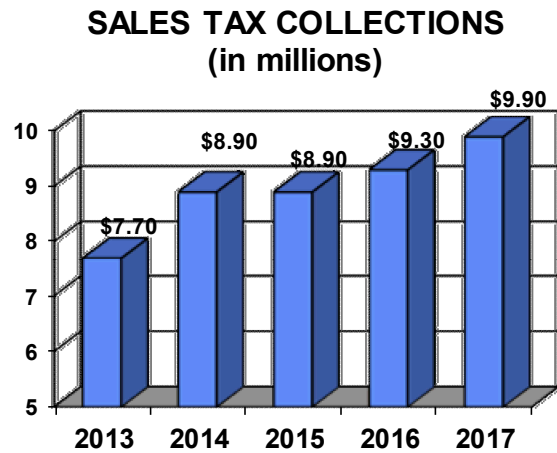

- **Pioneer Foods** is a subsidiary of C. H. Guenther & Son Inc. They manufacture frozen dough products.
- **Costco Wholesale Corporation** is the largest membership warehouse club chain in the world based on sales volume.
- **Shops at Waterview Park**, a \$30,000,000 mixed-use development, continues to prosper alongside Bella Ruscello, which offers 216 units of upscale apartment living adjacent to the Shops at Waterview Park.
- **Aldi**, a leader in the international grocery retailing industry, serving Europe, the USA and Australia, opened in Duncanville in 2010.
- In 2012, **W&B Service Company** completed construction of their 38,000 square foot facility on 16 acres and employs over 100 people to sell and service refrigerated tractor trailers.
- **EON Reality Inc.**, the world leader in virtual reality-based education and entertainment, partnered with the City and DCEDC in November 2014 to establish a school to serve the virtual reality needs of the metroplex and Texas.
- **WinCo** food store opened in June 2015 in the renovated old Walmart building that had been vacant for over a decade.
- **Advanced Auto, Good Life Assisted Living and Memory Care, and new medical and professional buildings** were economic development additions to Duncanville in 2016.
- **Super Mercado Monterrey grocery, Popeyes Chicken, Ten Hagen Excavating, GK Steel Fabrication, La Michoacana Meat Market, Stanley Restoration, Henderson Chicken, Walnut Grove Dental, PhoTnoodle Seafood Restaurant, and MaxxSave** were among new economic development additions to Duncanville in 2017.
- Coming soon are **La Quinta Inn, Hampton Inn and Suites**, a second **McDonalds**, and **Workout Anytime**.

Duncanville's citizens and business community are committed to managed growth and maintaining the level of economic prosperity and quality of life Duncanville currently enjoys.

In addition, the following major initiatives are in place, contributing to the overall health of the City:

- Continuing the design of the East and West bound service roads along I-20
- Continuing fair but firm Code Enforcement, resolving violations
- Maintaining a water and sewer line rehabilitation/replacement program
- Improving access to Duncanville and access to surrounding cities via expansion of Highway 67
- Comprehensive Plan (Destination Duncanville) Study and Parks Master Plan update
- Completion of Pavement Management Study to more cost effectively program future street maintenance needs
- Established a Vacant Building Ordinance to mitigate commercial and industrial structure vacancies. The ordinance provisions include registration of the vacant property, enhanced conditions and expectations for maintenance, and new requirements to secure the structure.

Economic Signs

Future Economic Outlook

Duncanville experienced unfavorable economic times in 2008 thru 2013 with the housing market decline and a recessionary economy. Fiscal year 2013-14 indicated a significant reversal as sales tax collections were up 14.3% compared to the previous year. Sales taxes increased 6.8% in FY17 and taxable property values increased 5.4% as the housing recovery continues. The acquisition of the Duncanville Fieldhouse continues to present challenges and opportunities. The DCEDC provides a safety net agreeing to fund any shortage in debt service on the building. The debt was refinanced in 2016 to take advantage of lower interest rates which will save \$826,645 over the remaining life of the bonds. The debt will be retired in the year 2024. Overall, Duncanville remains an attractive, well maintained city with a solid infrastructure that is well deserving of its moniker “City of Champions”.

Relevant Financial Policies

It is the City's policy that all interest-bearing demand deposits and time deposits are secured by pledged collateral with a market value equal to no less than 102% of the deposits less the amount insured by the FDIC (currently \$250,000). Evidence of the pledged collateral is maintained by the Finance Department and a third party financial institution. Collateral is reviewed periodically to assure the market value of the securities pledged equals or exceeds the related bank balances.

The Audit Committee of the Duncanville City Council is chartered to assist the City Council in fulfilling its financial and compliance oversight responsibilities. The Audit Committee is the City Council's principal agent in ensuring the independence of the City's annual financial audit, the integrity of City management, and the adequacy of financial disclosures to the public. The Audit Committee serves as the focal point for communication between the City Council, the independent auditor, and City management. The Audit Committee's primary duties and responsibilities are to: 1) Advise the City Council and management on the selection of the independent auditor. 2) Serve as an independent and objective party to monitor the City's financial and compliance reporting process and internal control system. 3) Review and appraise the audit efforts of the City's independent auditor. 4) Provide an open avenue of communication among the independent auditor, financial and senior management, and the Duncanville City Council.

Investment reports are presented to the City Council each quarter. These reports summarize all investments of the City and compare returns to benchmarks such as the 90-day Treasury-Bill rates. The reports also describe the portfolio in terms of investment securities, maturities, and risk characteristics. All investments and reports comply with the Public Funds Investment Act.

Pledged collateral is reviewed by the Finance Director or our investment advisors, Valley View Investments. The safekeeping institution, or Custodian, is the Federal Reserve Bank or an institution not affiliated with the firm pledging the collateral. The safekeeping agreement is a three-party contract between the City, the depository bank and the Federal Reserve Bank as custodian. The City also accepts letters of credit drawn on the Federal Home Loan Bank as collateral to protect investments.

All investments transacted by the City are purchased using the delivery versus payment method. That is, funds are not wired or paid until verification has been made that the correct security has been received by the Custodian. The security is held in the name of the City or held on behalf of the City. The Custodian's records must assure the notation of the City's ownership or explicit claim on the securities. The original copy of all safekeeping statements is delivered to the City.

Long-Term Financial Planning

The City Financial Policy states that the target fund balance of 60 days of operations should be maintained in the general fund. The City elected to target a 70-day fund balance for FY16 and increased that target for the FY17 Budget to a 75-day fund balance to insure against unforeseen changes that might negatively impact revenues or expenditures. The City also maintains 5-year capital improvement budgets for streets, parks, water and wastewater, and city buildings. A fleet replacement fund is also utilized that every cost center with capital equipment pre-funds so that no borrowing is required to replace fleet equipment. A similar Information Technology replacement fund is now in place to pre-fund computer and server replacements.

OTHER INFORMATION

Independent Audit

The City Charter requires an independent audit of the City's financial records each year by qualified certified public accountants selected by the City Council. This requirement has been complied with and the independent auditors' report has been included in this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Duncanville for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2016. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

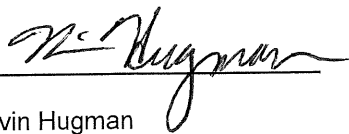

A Certificate of Achievement is valid for a period of one year only. We believe our current report for the year ended September 30, 2017 continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA for review.

Acknowledgments

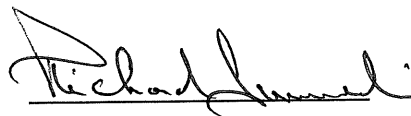

The preparation of this report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Tia Pettis, Assistant Finance Director and each member of the staff has our sincere appreciation for the contributions made in the preparation of this report.

We would also like to thank the members of the City Council for their support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Sincerely,

Kevin Hugman

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and
Members of the City Council
City of Duncanville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Duncanville, Texas (the "City"), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City's, basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Duncanville, Texas, as of September 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund and the Traffic Improvement and Safety Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2018, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Duncanville, Texas

Management's Discussion and Analysis for the Fiscal Year Ended September 30, 2017

As management of the City of Duncanville, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2017. We encourage readers to consider the information presented here in conjunction with our letter of transmittal at the front of this report and the financial statements which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$119.3 million (net position). This number must be viewed in the context of the vast majority of the City's net position of \$95.2 million are invested in capital assets and that most capital assets in government do not directly generate revenue nor can be sold to generate liquid capital. Net position of \$3.6 million is restricted for various purposes such as capital projects, public safety or community programs. The remaining \$20.5 million (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's governmental activities total assets and deferred outflows exceeded total liabilities and deferred inflows by \$73.1 million (net position). Governmental activities net position decreased by \$4.5 million. The City's total net position increased by \$3.0 million this fiscal year.
- As of the close of the current fiscal year, City of Duncanville governmental funds reported combined ending fund balances of \$13.6 million, an increase of \$2.3 from the prior year. Of this amount, \$8.4 million is unassigned and available for spending subject to the City's self-imposed limitations by management for intended use.
- At year-end, the unassigned fund balance for the General Fund was \$8.4 million. On a current financial resources basis, total fund balance for the General Fund increased by \$1.5 million.
- The City's net bonded debt decreased by \$740 thousand during this current fiscal year.
- The City has seen property tax revenue increases for the past four fiscal years. Accordingly, overall expenses also increased indicating a positive current and future outlook for the economy. The Economic Factors and Next Year's Budget section on the last page of this discussion provides additional information on this subject.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Duncanville's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business. The main goal is to ascertain whether the City of Duncanville is in a better financial position at the end of the current fiscal year compared to the previous year. The government-wide financial statements report information about the City as a whole and about its activities in a way that helps to determine this relative position. Other non-financial factors should also be taken into consideration to assess the overall health or financial condition of the City. Examples include but are not limited to changes in the City's property tax base and the condition of the City's streets.

The statement of net position presents information on all of the City's assets, deferred outflows (inflows) and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from the functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Governmental activities include most of the City's basic services such as police, fire, public works, code compliance, library, parks and recreation, economic development and community services as well as general government activities. The business-type activities of the City include water, sewer, and solid waste services.

The government-wide financial statements include not only the City itself (the primary government), but also the Duncanville Community and Economic Development Corporation (DCEDC) (a discretely presented component unit). The government-wide financials can be found on pages 13-15 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The basic governmental fund financial statements can be found on pages 16-24 of this report.

The City maintains fourteen governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General, Debt Service, Street Construction, and Traffic and Safety Improvement funds, all of which are to be considered major funds. Data from eight non-major special revenue funds and two non-major capital project funds are combined into a single, aggregated presentation. Individual fund data for these non-major governmental funds is provided in the form of combining statements on pages 70-79 of this report.

The City adopts an annual appropriated budget for its General, Debt Service, Hotel Tax, Drainage Fees, and Traffic Improvement and Safety Special Revenue funds. A budgetary comparison statement has been provided for the General and Traffic Improvement and Safety funds as part of the basic financial statements.

Proprietary funds. The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Utility (water and sewer), Solid Waste, and Sports

Facility operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its group health insurance, general liability insurance programs, and fleet and information technology replacement activities. All of these programs are predominantly governmental activities; however as they benefit both governmental and business-type activities, current year results have been allocated by function in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Utility, Solid Waste and Sports Facility funds since all are considered to be major funds of the City. Conversely, all of the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. The basic proprietary fund financial statements can be found on pages 25-27 of this report. Individual fund data for proprietary funds in the form of budget data and combining statements can be found on pages 79-86 of this report.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found immediately following the basic financial statements on pages 28-57 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension and other postemployment benefits to its employees. Required supplementary information is presented immediately following the notes to the basic financial statements.

The combining and individual fund statements and schedules are presented immediately following the required supplementary information on pensions. Included are budgetary schedules of revenues and expenditures for the General fund, non-major governmental fund individual and combining statements, and a schedule of operating revenues and expenses for the Utility, Solid Waste and Sports Facility funds.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City of Duncanville's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$119.3 million as of September 30, 2017.

The majority of the City's net position \$95.2 million (79.8%) are capital assets (e.g., land, buildings, equipment, improvements, infrastructure and construction in progress). The City uses these capital assets to provide services to citizens and consequently, these assets are not available for spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

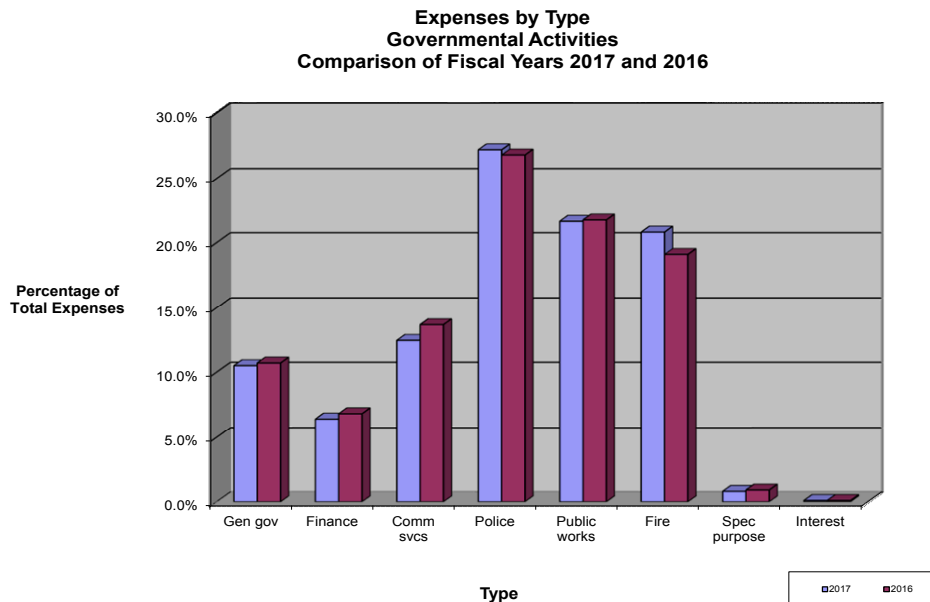

The City's balance of restricted net position of 3.6 million (3.0%) is reserved for various purposes such as capital projects, public safety and court programs.

The City's balance of unrestricted net position of \$20.5 million (17.2%) may be used to meet the government's ongoing obligations to citizens and creditors.

Analysis of the City's Operations- Overall, the City's total net position increased \$3.0 million (2.6%) from the prior year.

Governmental Activities- General revenue (excluding transfers) had a net increase of \$1.7 million. Ad valorem tax experienced an increase of \$1.1 million due to an increase in assessed valuations. Sales tax revenues increased by \$478 thousand due to a boost to the local construction economy. The charges for services category showed very little change with an overall decrease of \$155 thousand. Overall expenditures experienced a \$5.4 million increase over the prior year primarily due to the recognition of pension costs throughout all activities.

Business-type Activities- Net position from business-type activities increased by \$7.5 million. Program revenues increased by \$4.8 million due to water and sewer rate increases adopted in fiscal year 2017 and a capital contribution for a water tank. Overall business-type expenses reflected an increase of \$1.1 million as water and sewer costs have increased.

The following table provides a summary of the City's operations at fiscal year end 2017:

City of Duncanville's Changes in Net Position For the Fiscal Years Ending September 30, 2016 and 2015

Financial Analysis of the City's Funds

Governmental funds including General Fund budgetary highlights. The focus of the City of Duncanville's governmental funds is to provide information on the near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$13.6 million. Approximately 62.1% of this total amount constitutes unassigned fund balance which is available for any public purpose. Approximately 11.0% of fund balance has been assigned by City management for community services and innovative one-time projects. The restricted fund balance of \$3.6 million is 26.6% of the total fund balance and is constrained by creditors, grantors, contributors or laws or regulations. The remainder of the fund balance is considered non-spendable to indicate that it is not available for new spending because it has already been reserved for prepaid items of \$28 thousand (.2%). Fund balance for all governmental funds increased by \$2.3 million over the previous fiscal year.

In the General Fund, the original budget projected a \$188 thousand increase in fund balance this fiscal year. The final amended budget changed to an expected fund balance increase of \$277 thousand. It is one of the City's financial policies to maintain fund balance in General Fund to equal 60 days of expenditures, but the City opted to target a 75 day fund balance in fiscal year 2017 for unforeseen expenditure or revenue changes. The property tax rate remained at \$.758447 while assessed property valuations increased providing an ad valorem tax revenue increase of 9.2%. Sales tax increased by 6.8% due to a general increase in economic activity across several sectors including construction supplies and equipment. The franchise tax revenue had a decrease (2.1%) and tends to be volatile since it is based on weather and utility rates. The General fund balance increased by \$1.5 million.

Other governmental funds exhibited minor changes to fund balance. The Debt Service fund showed little change in fund balance with an decrease of \$55 thousand. The Street Construction capital project fund had very little activity with a decrease in fund balance of \$245 thousand. The Traffic Improvement and Safety fund balance increased by \$56 thousand. The enactment of the Scofflaw program has aided in the collection of red light tickets fines, allowing for more traffic and safety projects to be completed.

Proprietary funds. The City's proprietary fund statements provide detail on the City's individual enterprise funds activities and additionally report the financial results of the internal service funds which have been consolidated in the government-wide statements.

The City has an "inverted block" rate structure, which was meant to be revenue neutral based on same consumption. The Utility proprietary fund net position increased \$7.0 million due to water and sewer rates increases enacted in October 2016, and a capital contribution for Summit water tank. The Solid Waste fund net position decreased \$197 thousand during this fiscal year. The addition of the Fieldhouse Sports Facility in 2010 has presented some challenges under operation of the City, but ended fiscal year 2017 with an increase in net position of \$682 thousand.

Pensions and Retiree Healthcare

Effective for fiscal year 2016, Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" created specific reporting requirements for pensions that are different than that used for funding purposes. Both valuations are important as the reporting valuation provides a rigorous standard measure that can be used to compare the City's pension liabilities to other governments from around the nation. The funding valuation is important as the actuarial methods used including strategies for repaying any unfunded actuarial accrued liabilities combined with the City's history of making those contributions provides insights regarding the City's commitment to and the effectiveness of its funding strategy. Information contained in the financial statements themselves including the first schedule of Required Supplementary Information (RSI), Schedule of Changes in Net Pension Liability and Related Ratios, is based on the reporting valuation. The second schedule in the RSI, Schedule of Contributions, is based on the funding valuation. On a reporting basis, the City's financial statements reflect a Net Pension Liability as of September 30, 2017 of \$5.6 million. The City's plan fiduciary net position is 94.7% of the total pension liability.

Retiree health care's actuarially accrued liability has been calculated in accordance with GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", to be \$3.0 million as of December 31, 2016, which is an increase of \$142 thousand over the previous valuation.

Capital Assets

Governmental Accounting Standards Board (GASB) Statement No. 34 requires governments to report all capital assets in the Government-Wide Statement of Net Position. All infrastructure assets have been inventoried and reported in previous fiscal years.

At the end of fiscal year 2017, the City had \$100.0 million invested in a broad range of capital assets, including streets and public infrastructure, water and sewer lines, buildings, park and recreation facilities, and police and fire equipment. This amount represents a net increase of \$3.5 million which is 3.6% more than the capital assets for the prior fiscal year.

City of Duncanville's Capital Assets (Net of Depreciation, in Thousands)

	Governmental Activities		Business-Type Activities		Totals	
	2017	2016	2017	2016	2017	2016

Capital asset events during the current fiscal year include the following:

- Water and wastewater capital costs for the current fiscal year were \$2.7 million which includes water tank improvements and the completion of several water and sewer line improvements. In addition, the City received 3/5 transfer of ownership of the Summit water tank at a value of \$2.4 million.
- Land was purchased at \$193 thousand for future improvements at the intersection of Wintergreen Road and Main Street.
- Vehicle and equipment replacements were made totaling \$1.9 million out of the Fleet Replacement fund. The new additions include a new fire engine and 18 other vehicles or heavy equipment.
- More detailed information about the City's capital assets can be found in Note 5 to the financial statements.

Debt Administration

At year-end, the City had \$4.6 million in bonded debt outstanding. The entire amount is comprised of bonded debt backed by the full faith and credit of the City.

City of Duncanville's Outstanding Debt General Obligation Bonds (in Thousands)

	Business-Type Activities		Totals	
	2017	2016	2017	2016
General Obligation bonds	<u>4,600</u>	<u>5,340</u>	<u>4,600</u>	<u>5,340</u>
Totals	<u>\$ 4,600</u>	<u>\$ 5,340</u>	<u>\$ 4,600</u>	<u>\$ 5,340</u>

The City's general obligation bonds have been assigned the rating of "AA" by the Standard & Poor's Ratings. Additional information on the City's long-term bonded debt can be found in Note 8 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The following economic factors currently affect the City and were considered in developing the 2017-2018 fiscal year budget:

- Ad valorem tax revenue is determined, in part, by total assessed property value established by the Dallas Central Appraisal District. Property values increased 5.4% on the total tax roll for 2017-18 from 2016-17.
- The second factor in determining ad valorem tax revenue is the tax rate set by City Council. For 2017-18 fiscal year budget, the City tax rate remains at \$.758447 per \$100 of assessed valuation.
- Sales tax revenue as of September 30, 2017 realized an increase and this trend is expected to continue into the 2017-18 fiscal year at a conservative 2.0% increase over the final budget.
- A water/wastewater rate study was performed in 2013-14 fiscal year resulting in a five-year plan for rate increases. In October 2017, rates were increased for the fourth fiscal year in a row. The rate increases will support future Utility capital projects to improve the aging infrastructure.
- Although the City has funding for 2017-18 fiscal year budget for street maintenance expenses, additional funding resources for future maintenance is needed.
- The City has earmarked \$1.4 million in the budget for one-time expenditures. This includes City facility and park improvements and purchase for a new ERP system.

The City's budget continues to benefit from the strong economy. During the current fiscal year, the unassigned fund balance in the general fund was \$8.4 million, available for spending in the 2017-2018 fiscal year budget.

Contacting the City's Financial Management

CITY OF DUNCANVILLE, TEXAS

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
SEPTEMBER 30, 2017**

TOTAL FUND BALANCE- GOVERNMENTAL FUNDS \$ 13,600,875

Amounts reported for governmental activities in the statement of net position are different because:

Internal service funds are used by management to charge the cost of certain activities, such as health, liability and workers compensation insurance to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the government-wide statement of net position excluding an internal balance of \$300,325. 5,655,616

Investments in joint ventures represent a financial asset not reported in governmental funds. 679,741

Capital assets used in governmental activities are not current financial resources and therefore not reported in the governmental funds balance sheet, (excluding internal service funds assets of \$3,231,050). 56,372,573

Deferred outflows of resources are not reported in the governmental funds:

Pension contributions after measurement date	773,019	
Difference in projected and actual earnings on pension assets	4,163,600	
Changes in actuarial assumptions used to determine pension liability	1,243,539	
Difference in expected and actual pension experience	<u>305,267</u>	
		6,485,425

Revenue earned but not available within sixty days of the year end are not recognized as revenue in the fund financial statements. 936,471

Long term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds balance sheet.

Loan payable	(950,586)	
Net pension liability	(4,989,590)	
Compensated absences	(3,031,086)	
Other post employment benefits	<u>(1,635,001)</u>	
		(10,606,263)

Deferred inflows of resources are not reported in the governmental funds:

Difference in expected and actual pension experience	<u>(31,579)</u>

CITY OF DUNCANVILLE, TEXAS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED SEPTEMBER 30, 2017**

NET CHANGE IN FUND BALANCES- TOTAL GOVERNMENTAL FUNDS **\$ 2,323,054**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the government-wide statement of activities the cost of those assets is allocated over their estimated useful lives as depreciation expense, (excluding internal service capital additions of \$1,910,215). 1,208,201

The net change in equity of the joint venture is not reported at the fund level; however, it is reported at the government-wide level. 48,506

Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but it does require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in governmental funds. (2,731,241)

Current year long-term debt principal payments on contractual obligations, bonds payable, and capital leases are expenditures in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements. 204,742

Current year changes in the long term liability for compensated absences do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds. (155,705)

Certain revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (51,921)

Current year changes in the long term liability for OPEB does not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds. 43,142

Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The net revenue of the internal service funds is reported with governmental activities, (including adjustment of \$36,097 allocated to business type activities). (308,939)

Net pension costs are recognized in the governmental funds when paid are due for items not normally paid with available financial resources. However, the Statement of Activities is presented on a accrual basis and expenses reported when incurred. (5,019,835)

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES **\$ (4,439,996)**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES & NEW GASB PRONOUNCEMENTS

The City of Duncanville, Texas (the "City") was incorporated on August 2, 1947. It has been a home rule charter city since May 5, 1962, pursuant to Article XI, Section 5 of the State Constitution. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: community services, police, fire and public works.

The financial statements of the City have been prepared to conform to accounting principles generally accepted in the United States of America ("GAAP") as applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting and reporting policies and practices used by the City are described below:

Reporting Entity—The City is a municipal corporation governed by an elected mayor and six-member Council. Five Council Members are elected from single-member districts with the Mayor and one Council Member elected at large. As required by GAAP, these financial statements present information about the City (the primary government) and its component unit, the Duncanville Community and Economic Development Corporation ("DCEDC"), an entity for which the City is financially and operationally responsible for.

The DCEDC was incorporated on April 28, 1995 as a nonprofit industrial development corporation under the Development Corporation Act of 1979 ("Act"). The Corporation is organized exclusively for benefiting and accomplishing public purposes of, and to act on behalf of, the City, and the specific purposes for which the Corporation is organized. These purposes include the construction, renovation and operation of municipal buildings; the acquisition and improvement of parks, as well as the promotion and expansion of manufacturing and industrial facilities; and other economic development purposes. The DCEDC also provides services directly to the citizens of Duncanville. The DCEDC meets all three requirements sufficient to be considered a component unit (direct benefit, access to resources, and significance to the primary government). The DCEDC operates under a seven member Board of Directors, all appointed by the City Council. The Board is substantially separate from the City Council, classifying the DCEDC as a discretely presented component unit. Discretely presented component units are reported in a separate column in the government-wide statements to emphasize it is legally separate from the City. Separate financial statements are not issued for the DCEDC.

Government-Wide Financial Statements—Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the reporting entity. These statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. Governmental activities, which are partially supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position presents information on all of the City's assets, deferred outflows (inflows) and liabilities, with the difference reported as "net position." Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

The statement of activities presents information showing how the City's net position changed during the fiscal year. This statement also demonstrates the degree to which the direct expenses of a given activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Fund Financial Statements—Fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All non-major funds are aggregated and presented in a single column. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Duncanville, like other local governments, uses fund accounting to aid financial management and demonstrate legal compliance.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of resources available for spending, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The City of Duncanville maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service, Street Construction, and Traffic Improvement and Safety funds which are considered to be major funds. A budgetary comparison statement has also been provided for the General, and Traffic Improvement and Safety funds. Individual fund data for all non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds are maintained for enterprise and internal service operations of the City. Enterprise funds are used to report functions presented as business-type activities in the government-wide financial statements. The Utility, Solid Waste and Fieldhouse Sports Facility funds are considered to be major enterprise funds. Internal service funds are used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for health claims, general liability operations and fleet and capital replacement. The internal service funds predominately benefit governmental rather than business-type functions, so they have been included within governmental activities in the government-wide financial statements. All internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the Combining and Individual Fund Statements and Schedules section of this report. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Measurement Focus and Basis of Accounting—Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. With the economic resources measurement focus, all assets and liabilities (whether current or non-current) are reported on the statement of net position.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the fiscal year-end, except investment income which is recorded as earned. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, accrued interest on long-term debt, and expenditures related to compensated absences are recorded only when payment is due.

Revenues susceptible to accrual in governmental funds include ad valorem taxes, franchise taxes, sales taxes, interest earned, certain charges for services and intergovernmental revenues, if such revenues are both measurable and available as previously defined. Licenses, permits and municipal court fines are recognized when payment is received. The deferred inflows account is utilized in governmental funds to record earned amounts which are unavailable to liquidate liabilities of the current period (i.e., not collectible within 60 days).

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's water, sewer and other proprietary operations are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service funds include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City of Duncanville reports the following major governmental funds:

- The General fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- The Debt Service fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Resources for this fund are generated by a tax levy based upon property values. Payments for principal and interest are made from this fund for general obligation bonds, certificates of obligation bonds, and contractual obligation debt when due throughout the year.
- The Street Construction fund is a capital project fund that is used to account for the construction of major thoroughfares and petition paving projects.
- The Traffic Improvement and Safety fund is a special revenue fund that is used to account for the cost of red light camera operations. The revenue source is derived from red light ticket fines.

The City of Duncanville reports the following major proprietary funds:

- The Utility enterprise fund is used to account for the rendering of water and sewer services to the residents and businesses of the City.
- The Solid Waste enterprise fund is used to account for the rendering of sanitation services to the residents and businesses of the City.
- The Fieldhouse Sports Facility enterprise fund is used to account for the rendering of sporting league, tournament, and event services for the residents and non-residents.

All proprietary fund activities necessary to provide such services are accounted for in each individual fund, including administration, operation, maintenance, debt service, and billing and collection.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

Encumbrances—An encumbrance system is maintained in governmental funds to account for commitments resulting from approved purchase orders, contracts, or other forms of legal commitments. Under the City’s budgetary process, appropriations lapse at fiscal year-end. Encumbrances do not constitute expenditures or liabilities. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying financial statements. There were no encumbrances for the City at fiscal year-end.

Pooled Cash and Investments—Cash balances of all City funds are pooled into one bank account in order to maximize investment opportunities. Negative balances, if applicable, incurred in pooled cash at year-end are treated as inter-fund receivables of a surplus fund and inter-fund payables of the deficit fund.

Investments purchased with pooled cash are treated as pooled cash and investments. Earnings from these investments are allocated monthly to each fund based on that fund’s relative month-end cash and investment balance. Investments are recorded at cost; however, fiscal year-end investments with maturities greater than one year are reflected at fair value on the accompanying statement of net position.

The relationship of an individual fund to the pooled cash and investments account is essentially that of a demand deposit account. Individual funds can withdraw cash from the account as needed, and therefore all equity which the fund has in the pooled cash and investments account is highly liquid. For purposes of the accompanying statement of cash flows, the City has chosen to reconcile to “pooled cash and investments.”

Restricted Assets—Certain cash and investment balances are restricted by various legal and contractual obligations. The Utility Fund is used to report those proceeds of revenue bond issuances that are restricted for use in construction. Also included in the Utility enterprise fund are customer deposits received for water and wastewater service, which are, by law, considered restricted assets.

Inter-fund Receivables and Payables—Short-term amounts owed between funds are classified as “Due to/from other funds” in the fund financial statements. On the government-wide statement of net position, payables and receivables within governmental and business-type activities are eliminated and balances between these activities are reported on a single line entitled “internal balances”.

Prepaid Items—Payments made to vendors for services that will benefit periods beyond September 30, 2017, are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are accounted for on the consumption basis in governmental funds.

Capital Assets—Capital assets, which include land, buildings, infrastructure, improvements, equipment and construction in progress, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are valued at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the donation date. Repairs and maintenance are recorded as expenses. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Interest has not been capitalized for business-type activity assets during the construction period as such amounts are not material.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Assets capitalized have an original cost of \$5,000 or more and a useful life of at least two years. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	25 to 50 years
Infrastructure/improvements	7 to 50 years
Equipment	2 to 20 years
Water rights	50 years

Estimated Claims Payable—Property, general liability, and workers’ compensation insurance coverage is accounted for in the Comprehensive Self Insurance Fund, an internal service fund. At year-end, the estimated settlement value of claims reported and of claims incurred but not reported in excess of liability insurance limits is classified as estimated claims payable. Group health insurance is accounted for in the Medical Self-Insurance Fund, another internal service fund. At year-end, an estimate of unpaid claims that were incurred prior to September 30, 2017 is accrued based on past claims experience.

Accrued Compensated Absences—Full-time city employees earn sick leave at a rate of 8.00 hours per month. City employees earn vacation based on length of service. Full-time employees earn vacation leave as outlined below:

Hire	6.66 hours per month	Maximum 160 hours balance
4 yrs of continuous employment	10.0 hours per month	Maximum 240 hours balance
9 yrs of continuous employment	13.32 hours per month	Maximum 320 hours balance

Employees reaching the maximum vacation hour balance shall cease to accrue time until the balance has been reduced below the maximum. Full-time employees receive 32 hours of Bonus Vacation if the employee uses no sick leave during his/her anniversary year. Full-time employees receive 16 hours of Bonus Vacation if the employee uses eight (8) or less hours of sick leave during his/her anniversary year. Full-time employees using more than eight (8) hours of sick leave during his/her anniversary year are not eligible to receive bonus vacation. Any employee leaving the City in good standing is paid for accumulated vacation leave at their current pay rate. Sick leave may be accumulated from year to year, but only civil service employees are eligible to receive payment (for up to 90 day’s accumulation) upon retirement or termination. Accordingly, no liability has been recorded for the accumulated sick leave of non-civil service employees. The measurement of the liability for compensated absences was determined by applying a vesting method approach to accumulated vacation and sick leave balances at fiscal year-end and includes additional salary related payments for Social Security, Medicare and retirement contributions, in accordance with GASB Statement No. 16, Accounting for Compensated Absences. No liability is recorded in the governmental fund statements as payment of this liability will not be made with expendable available financial resources. Compensated absences are only reported in the governmental funds statements if they have matured (i.e., unused reimbursable leave still outstanding following an employee’s resignation or retirement). In the government-wide financial statements and proprietary fund statements, the liability for employees with over 20 years of service is recorded as a current liability as these employees are eligible for retirement regardless of their age. The General fund has been the primary funding source for payment of compensated absences to retiring or terminated employees.

Long-Term Debt—In the government-wide financial statements and the fund level proprietary financial statements, long-term debt is reported as a liability in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds if material in amount.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

In the governmental fund financial statements, bond premiums and discounts are recognized during the current period. The face amount of debt is recorded as other financing sources. Bond premiums and discounts are recorded as other financing sources and other financing uses.

Pensions—For purposes of measuring the net pension liability (asset), pension related deferred outflows and inflows of resources, and pension expense, City specific information about its Fiduciary Net Position in the Texas Municipal Retirement System (TMRS) and additions to/deductions from the City's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information regarding the City's Total Pension Liability (Asset) is obtained from TMRS through a report prepared for the City by TMRS consulting actuary, Gabriel Roeder Smith & Company, in compliance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions.

Deferred Outflows/Inflows of Resources—In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Deferred charges on refundings – A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Pension contributions after measurement date – These contributions are deferred and recognized in the following fiscal year.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five year period.
- Changes in actuarial assumptions used to determine pension liability – This difference is deferred and amortized over the estimated average remaining lives of all members determined as of the measurement date.
- The difference in expected and actual pension experience is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category.

- The first type arises only under the modified accrual basis of accounting. Accordingly, the item (unavailable revenue), is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues if they are not collected within 60 days of the fiscal year-end. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- The difference in expected and actual pension experience is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

Fund Equity—The City has adopted GASB Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions, to enhance the usefulness of fund balance information by providing clearer fund balance classifications and clarification of existing government fund type

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

definitions. The fund balance classifications under GASB No. 54 are Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable fund balance represents fund balance that is (a) not in a spendable form such as prepaid items or (b) legally or contractually required to be maintained intact such as an endowment.

Restricted fund balance consists of amounts that can be spent only on the specific purposes stipulated by law or by the external providers of those resources.

Committed fund balances are self-imposed limitations set in place prior to the end of the fiscal period used only for the specific purposes determined and approved by formal action (resolution) of the City Council majority vote, which is the highest level of decision making authority for the City. The same level of action is required to modify or rescind a fund balance commitment.

Assigned fund balance consists of amounts that are subject to a purpose constraint that represents an intended use established by the City Council, the City Manager or Finance Director by fund balance policy.

Unassigned fund balance represents the residual classification of fund balance and includes all spendable amounts not contained within the other classifications. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance; however, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance for that fund.

When multiple categories of fund balance are available for expenditure, the City will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

The City will maintain a minimum fund balance equal to sixty days of the total operating expenditures of the General Fund.

Additionally, the implementation of GASB No. 54 required the City to evaluate the classification of Special Revenue Funds. In accordance with GASB No. 54, Special Revenue Funds are used only to account for specific revenue sources that are externally restricted or committed by the government's highest level of decision making authority for specific purposes other than debt service or capital projects.

Net Position— Net position represents the difference between assets, deferred outflows (inflows) and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on the use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**
New Accounting Standards/Pronouncements-

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" – This statement changes the focus of accounting of postemployment benefits other than pensions from whether they are responsibility funding the benefits over time to a point-in time liability that is reflected on the employer's financial statements for any actuarially unfunded portion of benefits earned to date. This statement will become effective for the City in fiscal year 2018.

Statement No. 87, Leases – This statement changes the recognition requirements for certain lease assets and liabilities for leases that are currently classified as operating leases. This statement will become effective for the City in fiscal year 2021.

2. DEPOSITS AND INVESTMENTS

DEPOSITS: The City maintains a cash and investment pool that combines cash of the various funds in order to maximize investment opportunities. State statutes require that all deposits in financial institutions be insured by the FDIC or fully collateralized per the Public Funds Collateral Act. The City holds collateral limited to U. S. government obligations or obligations of the state of Texas and its agencies that have a fair value of not less than 102% of the principal amount of the deposits. The City's demand deposits were fully collateralized at September 30, 2017, in full compliance with state statute and City policy. At year-end, the reconciled balance of the City's cash was \$3,294,782. The combined bank balances of the City were \$1,838,280. Of the bank balance, \$250,000 was covered by Federal Depository Insurance and the remainder by covered by collateral held by the Federal Reserve Bank in the City's name under a joint safekeeping agreement with Wells Fargo Bank, N.A.

INVESTMENTS: The City participates in the Texas Local Government Investment Pool (TexPool) and the Local Government Investment Cooperative (LOGIC). TexPool is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. TexPool is governed by an Advisory Board composed equally of participants in the Pool and other persons who do not have a business relationship with the Pool who are qualified to advise the Pool. LOGIC is a public funds investment pool managed by First Southwest Management Company. LOGIC investments are not categorized in accordance with GASB Statement No. 3 disclosure requirements since the City is not issued securities, but rather owns an individual beneficial interest in the assets of the related investment pools. Investments in external investment pools are measured at the net asset value (NAV) per share (or its equivalent) determined by the pool. These investments and deposits are fully insured by the Federal Depository Insurance Corporation or collateralized by securities held in the name of Texas Treasury Safekeeping Trust Company. Authorized investments include obligations of the United States of America or its agencies, direct obligations of the State of Texas or its agencies, certificates of deposit and repurchase agreements.

The City's investments carried at fair value as of September 30, 2017 are as follows:

Description	Fair Value	Less Than 1 Year	Weighted Average Maturity
Investments			
Local Government Investment Cooperative ("Logic") (AAA/MR1+)	\$ 6,902,317	\$ 6,902,317	40 days
Texpool (AAAm)	4,800	4,800	36 days
Money Market Funds	11,090,397	11,090,397	1 day
Certificates of deposit	4,000,000	4,000,000	644 days
Total investments	<u>\$ 21,997,514</u>	<u>\$ 21,997,514</u>	

CITY OF DUNCANVILLE, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

As of September 30, 2017, the DCEDC's investments are as follows:

Description	<u>Fair Value</u>	<u>Less Than 1 Year</u>	<u>Weighted Average Maturity</u>
Investments			
Local Government Investment Cooperative ("Logic") (AAA/MR1+)	<u>\$ 308,785</u>	<u>\$ 308,785</u>	40 days
Total investments	<u>\$ 308,785</u>	<u>\$ 308,785</u>	

INTEREST RATE RISK: The strategy of the City is to maintain sufficient liquidity in its portfolio so that it does not need to sell a security prior to maturity. Should it become necessary to sell a security prior to maturity, the prior written consent of the City Manager must be obtained.

CREDIT RISK: The Public Funds Investment Act (PFIA) governs investment strategies and policies, training for investment officers, reporting requirements and types of investments allowed. The City has adopted an investment policy in compliance with PFIA.

State statutes, city bond ordinances and city resolutions authorize the City's investments. Such investments include: (1) obligations of the United States or its agencies; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal on which are unconditionally guaranteed by the State of Texas or the United States or their respective agencies; (4) collateralized certificates of deposit; (5) eligible local government investment pools which are continuously rated no lower than "AAA" or an equivalent rating by at least one nationally recognized rating service and; (6) repurchase agreements, reverse repurchase agreements, bankers acceptances, and commercial paper to the extent that they are contained in the portfolios of approved public funds investment pools in which the City invests.

CONCENTRATION OF CREDIT RISK: The city investment policy does not allow for an investment in any one issuer in excess of the following guidelines for each type of instrument:

Percentage of Portfolio (Maximum):

U.S. Treasury Obligations	85%
U.S. Government Agency Securities and Instrumentalities	75%
Authorized Local Government Investment Pool (per Pool)	75%
Financial Institution Certificates of Deposit	75%
Fully Collateralized Repurchase Agreements	50%
SEC-Regulated No-Load Money Market Mutual Fund (per Fund)	50%

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

3. AD VALOREM TAXES

Property tax is levied October 1 of each year on the assessed value listed as of the prior January 1 for all real and personal property located in the City. Assessed value represents the appraised value less applicable exemptions authorized by the City Council. Appraised values are established by the Dallas Central Appraisal District at 100% of estimated market value. The assessed value for the tax roll of January 1, 2016, upon which the 2017 fiscal year levy was based, was \$1,969,927,593.

Taxes are due on October 1, immediately following the January 1 lien date and are delinquent after the following January 31. Penalty and interest is charged at 7% on delinquent taxes beginning February 1, and increases to 18% on July 1, additional interest accrues at the rate of 1% each month thereafter. As of July 1, a 20% collection cost may be added to all delinquent accounts. Total current tax collections for the year ended September 30, 2017 were 98.14% of the tax levy.

In Texas, countywide central appraisal districts are required under the Property Tax Code to assess all property within the appraisal district on the basis of 100% of its appraised value and are prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years; however, the City may, at its own expense, require annual reviews of appraised values. The City may challenge appraised values established by the appraisal district through various appeals and, if necessary, legal action. Under this legislation, the City continues to set tax rates on City property. However, if the effective tax rate, excluding tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 8%, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than 8% above the tax rate of the previous year.

4. RECEIVABLES

Receivables at September 30, 2017, for the government's individual major, non-major and internal service funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Debt Service	Street Construction	Traffic I&S	Nonmajor Governmental	Utility Fund	Solid Waste Fund	Total
Receivables								
Accounts	\$ 2,559,128	\$ -	\$ -	\$ 104,394	\$ 210,524	\$ 3,666,696	\$ 638,140	\$ 7,178,882
Ad valorem taxes	541,763	250,171	-	-	-	-	-	791,934
Other taxes	2,366,642	-	-	-	138,475	-	-	2,505,117
Assessments	-	-	51,950	-	-	-	-	51,950
Intergovernmental	-	-	-	-	248,533	-	-	248,533
Gross receivables	5,467,533	250,171	51,950	104,394	597,532	3,666,696	638,140	10,776,416
Less allowance for uncollectibles	(2,095,974)	(219,529)	-	-	(26,973)	(566,429)	(80,918)	(2,989,823)
Net total receivables	\$ 3,371,559	\$ 30,642	\$ 51,950	\$ 104,394	\$ 570,559	\$ 3,100,267	\$ 557,222	\$ 7,786,593

CITY OF DUNCANVILLE, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

The City has active construction projects as of September 30, 2017. Total accumulated commitments for ongoing capital projects are composed of the following:

Governmental activities	
General Fund	\$ 29,074
Total governmental activities	<u>\$ 29,074</u>
Business-type activities:	
Utility Fund	\$ 803,540
Total business-type activities	<u>\$ 803,540</u>

6. INTERFUND BALANCES AND TRANSFERS

Interfund balances as of September 30, 2017 are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Non-major governmental (grants)	Non-major governmental (asset forfeiture)	145,000
Utility (enterprise fund)	Sports Facility (enterprise fund)	1,010,000
Debt Service (governmental fund)	General (governmental)	10,000
	Total	<u>\$ 1,165,000</u>

All receivables listed are to reclassify negative cash balances at fiscal year-end.

Transfers were as follows for the fiscal year ended September 30, 2017:

<u>Transfer from</u>	<u>Transfer to</u>	<u>Amount</u>	<u>Purpose</u>
General	Non-major governmental	\$ 48,447	Matching funds for grant
General	Sports Facility	614,754	Fund capital project
General	Street Construction	27,000	Fund capital project
Debt Service	General	1,375,000	Excess fund balance
Traffic I & S	General	105,078	Administrative and overhead charges
Non-major governmental	General	45,018	Administrative and overhead charges
Utility	General	2,131,157	Administrative and overhead, PILOT
Solid waste	General	146,693	Administrative and overhead charges
	Non-major governmental	200,000	To fund alley repairs
Non-major governmental	Utility	108,932	Fund capital project
	Total	<u>\$ 4,802,079</u>	

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

7. BUDGETARY COMPLIANCE

Budgets are legally adopted at the fund level of control for the General, Debt Service, Traffic Safety and Improvement, Hotel Tax, and Drainage funds on a basis consistent with GAAP using the modified accrual basis of accounting. Budgetary comparison statements or schedules are presented for these funds which include actual expenditures on a basis consistent with the legally adopted budget as amended. Capital project funds are budgeted over the life of the projects and not on an annual basis. For the year ended September 30, 2017, expenditures exceeded appropriations (the legal level of budgetary control) in the Traffic Improvement & Safety fund by \$13,394. The over expenditures were funded by greater than expected revenues in the same fund.

8. LONG-TERM DEBT

Various types of long-term debt have been issued by the City for the acquisition and construction of major capital facilities and equipment as follows:

- General obligation bonds are issued pursuant to voter authorization for infrastructure and facility projects accounted for in the governmental capital project funds. General obligation bonds are also issued to refund prior debt issues. The City intends to retire this debt, plus interest, from ad valorem taxes.
- Certificate of obligation debt is similar to general obligation bonds in their usage and retirement but do not require voter authorization and are not used for refunding debt.

Annual debt service requirements to maturity for long-term bonded debt are as follows:

Year Ending September 30	Business-type Activities		DCEDC	
	Principal	Interest	Principal	Interest
2018	765,000	127,234	475,000	17,666
2019	780,000	105,414	480,000	12,653
2020	560,000	84,602	480,000	7,613
2021	470,000	67,800	485,000	2,546
2021-2025	2,025,000	123,825	-	-
Total	4,600,000	508,875	1,920,000	40,477

CITY OF DUNCANVILLE, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

Long-term bonded debt at September 30, 2017, includes the following individual issues:

	<u>Interest Rate (%)</u>	<u>Maturity Date</u>	<u>Amount Outstanding</u>	<u>Due Within One Year</u>
<u>Business-type Activities</u>				
G.O. Refunding Series 2013	1.000-4.625	2/15/2020	\$ 800,000	\$ 345,000
G.O. Refunding Series 2016	3.000-4.000	2/15/2025	<u>\$ 3,800,000</u>	<u>\$ 420,000</u>
Total business-type activities long-term debt			<u>\$ 4,600,000</u>	<u>\$ 765,000</u>
Total long-term bonded debt (primary government)			<u>\$ 4,600,000</u>	<u>\$ 765,000</u>
<u>DCEDC (Component Unit)</u>				
G.O. Refunding Series 2016A	1.050	2/15/2021	<u>1,920,000</u>	<u>475,000</u>
Total DCEDC			<u>\$ 1,920,000</u>	<u>\$ 475,000</u>

There was no long-term bonded debt for the governmental activities at September 30.

CITY OF DUNCANVILLE, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

Long-term liability activity for the year ended September 30, 2017, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Loan payable	\$ 1,155,342	\$ -	\$ 204,756	\$ 950,586	\$ 211,700

Total long-term liabilities (primary government)	<u>\$ 13,217,347</u>	<u>\$ 6,147,327</u>	<u>\$ 2,879,561</u>	<u>\$ 16,485,113</u>	<u>\$ 1,236,568</u>
DCEDC (Component unit):					
Bonds payable:					
Certificates of obligation	\$ 2,320,000	\$ -	\$ 2,320,000	\$ -	\$ -
General Obligation Refunding Series 2016A	-	2,395,000	475,000	1,920,000	475,000
Total DCEDC	<u>2,320,000</u>	<u>2,395,000</u>	<u>2,795,000</u>	<u>1,920,000</u>	<u>475,000</u>
Total DCEDC long-term liabilities	<u>\$ 2,320,000</u>	<u>\$ 2,395,000</u>	<u>\$ 2,795,000</u>	<u>\$ 1,920,000</u>	<u>\$ 475,000</u>

The long-term liabilities other than debt, such as compensated absences and other postemployment benefits, are paid from the General, Enterprise, and Internal Service funds based on the assignment of the employee at termination.

The General fund secured a loan for \$1,483,374 in January 2016 to fund an economic incentive grant paid to EON Reality Duncanville Entrepreneur School. The loan terms are 3.34% rate with 84 monthly payments ending December 15, 2021. The remaining balance on the loan as of September 30, 2017 is \$950,586.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Due to favorable interest rates, the City issued General Obligation Refunding Bonds, Series 2016A in the amount of \$2,395,000. The proceeds were used to refund \$2,320,000 of outstanding Series 2006 Tax and Waterworks and Sewer System Revenue Certificates of Obligation. The proceeds were deposited with an escrow agent to purchase direct obligations of the United States of America. The reacquisition price exceeded the net carrying amount of the old debt by \$27,428. This amount is being amortized over the remaining life of the refunded debt. As a result, the refunded obligations are defeased and the liability for those bonds has been removed from the City's financial statements.

9. DEFINED BENEFIT PENSION PLAN

Plan Descriptions. The City participates as one of 872 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agency multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Sections 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmr.org.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided. TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in over of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

A summary of the plan provisions for the City are as follows:

Employee deposit rate	7%
Matching ratio (city to employee)	2 to 1
Years required for vesting	5
Service retirement eligibility (age/yrs service)	60/5, 0/20
Updated Service Credit	0%
Annuity Increase (to retirees)	0% of CPI

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Employees covered by benefit terms

At the December 31, 2016 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit:	202
Inactive employees entitled to but not yet receiving benefits	166
Active employees	<u>257</u>
	<u><u>625</u></u>

Contributions. The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are with 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contributions rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 3.41% and 5.42% in calendar years 2016 and 2017, respectively. The city's contributions to TMRS for the year ended September 30, 2017, were \$1,021,533, and were equal to the required contributions.

Net Pension Liability. The City's Net Pension Liability was measured as of December 31, 2016, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies. This experience study was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated

based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, the actuary focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2017 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.5%	4.55%
International Equity	17.5%	6.35%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	4.15%
Real Return	10.0%	4.15%
Real Estate	10.0%	4.75%
Absolute Return	10.0%	4.00%
Private Equity	5.0%	7.75%
Total	<u>100.0%</u>	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will remain at the current 7%, as specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**
Changes in the Net Pension Liability (Asset)

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a) - (b)
Changes for the year:			
Service cost	\$ 1,968,819	\$ -	\$ 1,968,819
Interest	6,840,894	-	6,840,894
Change of benefit terms including substantively automatic status	3,051,493	-	3,051,493
Difference between expected and actual experience	454,847	-	454,847
Changes of Assumptions	-		
Contributions - employer	-	531,144	(531,144)
Contributions - employee	-	1,090,327	(1,090,327)
Net investment income	-	6,651,413	(6,651,413)
Benefit payments, including refunds of employee contributions	(5,336,944)	(5,336,944)	-
Administrative expense	-	(75,153)	75,153
Other changes	-	(4,049)	4,049
Net changes	6,979,109	2,856,738	4,122,371
Beginning Balance at 12/31/2015	\$ 99,979,151	\$ 98,461,369	\$ 1,517,782
Ending Balance at 12/31/2016	<u>\$ 106,958,260</u>	<u>\$ 101,318,107</u>	<u>\$ 5,640,153</u>

The following presents the net pension liability (asset) of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) of 1-percentage-higher (7.75%) than the current rate:

	1% Decrease in Discount Rate (5.75%)	Current Discount Rate (6.75%)	1% Increase in Discount Rate (7.75%)
City's net pension liability (asset)	\$ 19,017,251	\$ 5,640,153	\$ (5,466,407)

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. The report may be obtained on the Internet at www.tmr.org.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended September 30, 2017, the City recognized pension expense of \$6,633,880.

At September 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 345,069	\$ 35,697
Difference between projected and actual investment earnings	4,706,467	-
Difference in assumption changes	1,405,676	-
Contributions subsequent to the measurement date	<u>873,808</u>	<u>-</u>
Total	<u>\$ 7,331,020</u>	<u>\$ 35,697</u>

Deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date of \$873,808 will be recognized as an addition to the net pension liability for the measurement year ending December 31, 2017 (i.e. recognized in the City's financial statements in the year ended September 30, 2018). Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

<u>Year ended Dec 31</u>	
2018	\$ 2,429,942
2019	2,451,164
2020	1,541,464
2021	<u>(1,055)</u>
Total	\$ 6,421,515

10. REGIONAL SYSTEMS FOR WATER SUPPLY AND WASTEWATER TREATMENT

City of Dallas Water Purchase Agreement - In 2014, the City entered into a thirty-year agreement to purchase treated water from the City of Dallas. The rate during fiscal 2017 was \$0.4416 per 1,000 gallons plus an annual demand charge of \$262,058 for each million gallons per day as established by the rate of flow controller setting (currently 9.5 million gallons at \$2,489,551 annually).

Trinity River Authority Sewage Disposal Agreement - The City, along with the cities of Cedar Hill, DeSoto, Ferris and Lancaster, is a member of the Trinity River Authority (TRA) of Texas Ten Mile Creek Regional Wastewater System ("the System"). Under the contract dated December 1, 1983, the System provides for and operates a regional wastewater treatment plant and conveyance facility for the benefit of the parties. The City is required to deliver all of its wastewater from within the Ten-Mile Creek basin to the System's conveyance system for treatment. The City is then charged monthly based upon the percentage of its flow to the total flow received by the System and the System's cost of operation and maintenance, including debt service on bonds issued to construct the System. The contract will remain in force and effect until all bonds have been paid in full and thereafter for a period of fifty years from the date of the contract.

Additionally, the City is a member of the Trinity River Authority of the Texas Regional Wastewater System (the "Regional System") through a contract with TRA dated June 27, 1984. The contract will remain in force and effect until all bonds have been paid in full and thereafter for a period of fifty years from the date of the contract. The City's wastewater is treated by the Regional System at its Ten Mile Creek Regional Plant and its Central Regional Plant. The City's payments to the Regional System have been deemed to be an operation and maintenance expense of the City's waterworks and sewer system and are payable monthly. The City's payments are based upon its percentage of the total of all contracting parties in the Regional System applied to total operation and maintenance expenses of the Regional System, including debt service. The Regional System is obligated to treat all of the City's sewage flow.

Lakeview Regional Water Supply Contract - The City and the Cities of Grand Prairie and Cedar Hill entered into a contract with TRA, dated February 27, 1985, in effect for the useful life of the project, whereby TRA would sell its revenue bonds and construct and operate a water treatment plant, transmission and storage facilities necessary to supply treated water from Joe Pool Lake to the cities. Water intake facilities were financed and constructed in 1986 but the treatment plant and transportation facilities have not been constructed. There are no current plans to construct the treatment plant and transportation facilities for the City necessary to use the raw water from Joe Pool Lake. Under the contract, the City is required to pay its proportionate share (based on a percentage of water usage) of maintenance and operation costs. The City's current payments under the contract, which include debt service on bonds issued by TRA to construct the intake facilities and other costs associated with the facility, are approximately \$4,900 per year.

Dallas Wastewater Treatment Contract - In 2014, the City entered into a thirty-year contract with the City of Dallas to transport and treat wastewater from an area in the northeastern part of the City. Under the contract, the City is required to pay a transportation charge (based on cost of service) and a treatment charge (at the same rate as Dallas is charged by TRA for treatment of the wastewater). The City's current payments under the contract are approximately \$320,000 per year.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**
11. SELF-INSURANCE

The City has established a medical self insurance plan for City employees and their covered dependents. The City self insures its employees and their dependents for illness, injury, and hospitalization up to \$150,000 per plan year. A third party insurance company coinsures with the City for individual claims in excess of \$150,000 up to an unlimited lifetime maximum. Aggregate claims in excess of \$2,597,529 are also coinsured up to a maximum of \$1,000,000 per claim. All claims and maximums are calculated for a plan year ending each September 30. This is the City's first fiscal year to exceed the aggregate attachment point.

The City established a comprehensive self-insurance plan for workers' compensation, property and casualty, and general liability coverage. The self-insurance plan encompasses workers' compensation benefits, fire, law enforcement, auto fleet, computer hardware and software, other property, public officials' liability and general liability coverage. A third-party insurance company coinsures with the City for individual claim retention levels and corresponding policy limits as follows: \$75,000/\$1,000,000 for workers' compensation; \$25,000/\$62,061,556 for real and personal property; and \$25,000/\$2,000,000 for liability claims. All claims and maximums are calculated for a plan year ending each September 30. Settled claims have not exceeded the aggregate policy limits in any of the past three fiscal years.

The claims liabilities of \$386,763 and \$151,567 reported in the medical self-insurance fund and comprehensive self-insurance fund, respectively, are based on the requirements of GASB 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," which requires that a liability be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the funds' claims liability amount in fiscal years 2016 and 2017 were:

	Beginning of Fiscal Year Liability		Claims and Changes in Estimates		Claim Payments		Balance at Fiscal Year-End
Medical Self-Insurance Fund							
2016	\$ 265,837	\$	2,621,515	\$	(2,589,341)	\$	298,011
2017	298,011		3,505,647		(3,416,895)		386,763
Comprehensive Self-Insurance Fund							
2016	\$ 178,634	\$	354,552	\$	(302,379)	\$	230,807
2017	230,807		5,877		(85,117)		151,567

Accrued liabilities include provisions for claims reported and claims incurred but not reported. The provision for reported claims is determined by estimating the amount which will ultimately be paid for each claimant. The provision for claims incurred but not yet reported is estimated based on City experience since the inception of the program. All claims are expected to be paid within one year. Premium payments are reported as inter-fund services provided and used; accordingly, they are treated as operating revenues of the Self-Insurance Internal Service Funds and operating expenditures/expenses of the participating funds.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**
12. POSTEMPLOYMENT BENEFITS

Plan Description- In addition to the pension benefits described in Note 9, the City makes postretirement health care benefits available to all employees who retire from the City and who qualify to receive pension disbursements from Texas Municipal Retirement System (TMRS) through a single-employer defined benefit healthcare plan. The retiree pays premiums for the retiree and dependents monthly. During fiscal year ended 2017, \$503,606 in claims were paid on retirees covered under the plan. The plan does not issue a separate financial report.

Benefits Provided- The benefits are provided to the retired employee and dependents under the same plan as active employees in accordance with State law. As of September 30, 2017, twenty-four retirees were covered under the healthcare plan.

Funding Policy- The City's contribution is based on a pay-as-you-go funding policy where the City's contributions are equal to claims in excess of retiree contributions. For fiscal year 2017, retiree contributions were \$450 to \$1,430 per month depending on the amount of dependents selected. In fiscal year 2017, total member contributions were \$238,755. The City contributions for fiscal year 2017, which are also equal to claims paid in excess of premiums collected, were \$264,851.

Annual OPEB Cost and Net OPEB Obligation- The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize unfunded actuarial liabilities (or funding excess) over an open period not to exceed thirty years.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation:

Fiscal Year	2015	2016	2017
Annual required contribution	\$ 275,377	\$ 275,377	\$ 238,040
Interest on net OPEB	67,591	74,552	74,903
Adjustment to annual required contribution	<u>(62,623)</u>	<u>(69,072)</u>	<u>(72,968)</u>
Annual OPEB cost (expense)	280,345	280,857	239,975
Contributions made	<u>(125,665)</u>	<u>(64,990)</u>	<u>(264,851)</u>
Increase in net OPEB obligation	154,680	215,867	(24,876)
Net OPEB obligation- beginning of the year	<u>1,502,028</u>	<u>1,656,708</u>	<u>1,872,575</u>
Net OPEB obligation- end of the year	<u>\$ 1,656,708</u>	<u>\$ 1,872,575</u>	<u>\$ 1,847,699</u>
Percentage of OPEB costs contributed	44.8%	23.1%	110.4%

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

Funded Status and Funding Progress- The funded status of the City's retiree health care plan under GASB Statement No. 45 as of December 31, 2016 is as follows:

<u>Actuarial Valuation Date as of</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Accrued Liability (AAL)</u>	<u>Unfunded Actuarial Accrued Liability (UAAL)</u>	<u>Funded Ratio</u>	<u>Annual Covered Payroll</u>	<u>UAAL as a Percent of Covered Payroll</u>
12/31/2016	-	\$2,956,022	\$2,956,022	0.0%	15,576,098	19.0%

Under the reporting parameters, the City's retiree health care plan is 0.0% funded with an estimated actuarial accrued liability exceeding actuarial assets by \$2,956,022 at December 31, 2016. As of the most recent valuation, the ratio of the unfunded actuarial accrued liability to annual covered payroll is 19.0%.

Actuarial Methods and Assumptions- The Individual Entry Age Normal Cost Method is used to calculate the GASB ARC for the City's retiree health care plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The actuarial cost method then provides for a systematic funding for these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

Projections of health benefits are based on the plan as understood by the City and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and the City's employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Inflation rate	2.50% per annum
Investment rate of return	4.00% per annum, net of expenses
Actuarial cost method	Individual Entry Age Normal Cost Method
Amortization method	Level as a percentage of employee payroll
Amortization period	30-year, open amortization
Payroll Growth	3.00% per annum
Healthcare cost trend rate	Initial rate of 7.50% declining to an ultimate rate of 4.25% after 15 years

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the City's retiree health care plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017

13. CONTINGENT LIABILITIES

Pending Litigation—In the opinion of the City’s management, no pending litigation exists at September 30, 2017.

Arbitrage Rebate Requirement—The Tax Reform Act of 1986 imposes a rebate requirement with respect to certain bonds issued by the City. Under this requirement, an amount equal to the sum of (a) the excess of the aggregate amount earned on all investments over the amount that would have been earned if all investments were invested at a rate equal to the yield on the bonds and (b) any income earned on the excess described in (a) is required to be rebated to the United States Treasury, in order for the interest on the bonds to be excluded from federal taxation. Regulations implementing the rebate requirement were released by the Internal Revenue Service on May 12, 1989.

Grant Audit—The City receives federal and state grants for specific purposes that are subject to review and audit by federal and state agencies. Such audits could result in a request for reimbursement by the federal and state agencies for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of City management, such disallowances, if any, will not be significant to the City’s financial statements.

14. REGIONAL DISPATCH CENTER

The City entered into an annually renewable Interlocal Cooperation Agreement with the Cities of DeSoto and Cedar Hill (“participating cities”) on August 10, 1999 to establish a Regional Public Safety Dispatch and Alarm Monitoring Facility (“the Center”). The Center provides police, fire and emergency medical service communications to participating cities. The Center’s Management Committee is comprised of each of the participating cities’ City Manager or their designee. The City has a one-third (1/3) share in the equity of the Center, which qualifies as a joint venture and is accounted for in the government-wide statement of net position. The value of the City’s share in the equity of the facility as of September 30, 2017, is \$193,979. The financial statements of the Center can be obtained by contacting: City of DeSoto Finance Department, 211 E. Pleasant Run Rd., DeSoto, TX 75115.

15. REGIONAL ANIMAL CONTROL SHELTER

The City entered into an annually renewable Interlocal Cooperation Agreement with the Cities of DeSoto and Cedar Hill on September 3, 1991 to establish a Regional Animal Control Shelter facility (“the facility”). The facility’s Management Committee is comprised of each of the participating cities’ City Manager or their designee. The City has a one-third (1/3) share in the equity of the facility, which qualifies as a joint venture and is accounted for in the government-wide statement of net position. In January 2008, the City of Cedar Hill issued \$2,040,000 of bonds to finance the construction of a new animal control shelter. The bonds were refunded in August 2016. The City’s remaining debt obligation to pay at fiscal year-end is \$407,500. The value of the City’s share in the equity of the facility net of the debt is \$485,762 as of September 30, 2017. The financial statements of the facility can be obtained by contacting: City of Cedar Hill Finance Department, P.O. Box 96, Cedar Hill, TX 75106-0096.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

16. MAIN STATION PROPERTY

On April 25, 2003, MARA, as the General Partner, and the Andersons and the Duncanville Community Economic Development Corporation (DCEDC), as the Limited Partners, entered into the Main Station Agreement under and in accordance with the Texas Revised Limited Partnership Act, Article 6132a-1, of the Texas Revised Civil Statutes. Main Station houses retail and restaurant spaces in Duncanville. The DCEDC has a 32% share in the equity of Main Station, which qualifies as a joint venture and is accounted for in the government-wide statement of net position. The value of the DCEDC's share in Main Station as of September 30, 2017 is \$18,633. The financial statements can be obtained by contacting: MARA Inc., 111 E. Davis Street, Suite 101, Duncanville, Texas 75116.

17. EON REALITY DUNCANVILLE ENTREPRENEUR SCHOOL

The City entered into a ten year lease agreement with EON Reality, Inc. on October 23, 2014 for a City building to be used for the EON Reality Duncanville Entrepreneur School. Total rent received from EON in fiscal year 2017 was \$150,500.

18. TAX ABATEMENTS

The City enters into economic development agreements designed to promote development and redevelopment within the City, stimulate commercial activity, generate additional sales tax and enhance the property tax base and economic vitality of the City. This program rebates property, sales and hotel occupancy taxes as authorized under Chapter 380 of the Texas Local Government Code.

The City has entered into various agreements that rebate a percentage of property and sales tax. The agreement for rebate of property tax calls for rebate of 50% of taxes on incremental values for up to 5 years. The agreement for sales tax provides rebate of 13% of taxes for up to 5 years.

For fiscal year 2017, the City rebated property taxes of \$38,274 or 0.3 % of the \$14,953,790 total levy and rebated sales taxes of \$6,711 or 0.09% of the \$7,496,586 total sales tax revenues.

19. COMMITMENTS

**Duncanville Community and Economic Development Corporation (DCEDC)
Incentive Agreement with W & B Service Company L.P. ("W & B"):**

DCEDC agreed to pay an economic development grant to W & B up to \$200,000 beginning with the tax year 2013, in the form of up to five annual payments. DCEDC shall reimburse W & B as follows: (1) an amount equal to one-half of the property taxes actually paid to the City of Duncanville, and (2) an amount equal to the one-eighth of the sales tax paid to the City. The reimbursement incentive shall end after five annual payments or upon accumulative payment of \$200,000, whichever occurs first. The City paid \$44,985 on this incentive in fiscal year 2017.

**NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2017**

City of Duncanville (City) Incentive Agreement with Deford Lumber Company, Ltd.:

The City agreed to pay an economic development retention grant to Deford Lumber Company up to \$1.5 million to be paid in 60 monthly payments, which is \$25,000 per month, beginning February 2015. As a condition of the agreement, Deford Lumber Company must generate local sales tax at a minimum of \$645,000 annually for the preceding calendar year. The City paid \$300,000 on this incentive in fiscal year 2017.

City of Duncanville (City) photo red light enforcement program agreement with Redflex Traffic Systems, Inc.:

The City agreed to pay Redflex Traffic Systems, Inc. for red light equipment, processes and back office services. The current rate is \$5,072 monthly per services per approach and the City utilizes equipment for eight approaches. Each year the rate is subject to increase by the Consumer Price Index (CPI). The terms of the agreement are in effect for ten years ending in June 2022. In fiscal year 2017, the City paid Redflex \$604,277 for equipment and maintenance expenses from the Traffic & Safety Improvement fund.

Duncanville
City of Champions

DUNCANVILLE

The Perfect Blend of Family, Community and Business.

CITY OF DUNCANVILLE

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS:

Special Revenue Funds account for the proceeds of special revenue sources that are legally or administratively restricted to expenditures for specified purposes. Individual Special Revenue Funds maintained are as follows:

Hotel/Motel Tax Fund-to account for monies received from a tax upon the cost of occupancy in hotels and motels, the revenues of which may be expended to promote tourism and the convention and hotel industry.

Drainage Fees Fund-to account for funds received from user fees for major storm water drainage improvement projects throughout the City. The Drainage Fees fund was created to reduce flooding, reduce creek erosion, and comply with EPA mandates regarding storm water management.

Grants Fund-to account for funds granted to the City by state and federal governments to be used for public safety, and cultural and recreational purposes.

Court Technology Fund-to account for funds received from Municipal court fines to be used for upgrading technology.

Court Security Fund-to account for funds received from Municipal court fines to be used for providing security to Municipal Court.

Juvenile Case Manager Fund-to account for funds received from Municipal court fines to be used only to finance the salary and benefits of a juvenile case manager.

Asset Forfeiture Fund-to account for awards of money by the courts to the Police Department.

Tax Incremental Financing Fund- to account for monies received from property tax increment funds to facilitate development or redevelopment of economically distressed areas of the City.

CAPITAL PROJECTS FUNDS:

Capital Projects Funds account for resources used for the acquisition and/or construction of capital facilities and improvements, except those financed by the Proprietary Fund types. Resources are derived primarily from sales of general obligation bonds and certificates of obligation. Individual funds maintained are as follows:

Park Construction Fund – to account for various improvements made in the City’s parks and recreational facilities.

Capital Improvements Fund – to account for the expenditures of various one-time capital improvements.

DUNCANVILLE

The Perfect Blend of Family, Community and Business.

CITY OF DUNCANVILLE
INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for financing of services provided by one department to other departments of the City on a cost-reimbursement basis. The Internal Service Funds are members of the proprietary fund category, and as such, are accounted for on the accrual basis of accounting. There are three funds within the Internal Service Funds:

Fleet Replacement Fund – To account for the financing and expenses related to the purchase of fleet and equipment.

Information Technology Replacement Fund – To account for the financing and expenses related to the purchase of computers, servers and other information technology equipment.

Medical Self-Insurance Fund – This fund is used to account for the costs associated with the medical, dental and life insurance program established for City employees and their covered dependents.

Comprehensive Self-Insurance Fund – This fund is used to account for the costs associated with the general liability, property and casualty, and workers' compensation self-insurance program established by the City.

CITY OF DUNCANVILLE

COMPONENT UNIT FUND FINANCIAL STATEMENTS

The only component unit of the City is the Duncanville Community and Economic Development Corporation (DCEDC). On January 21, 1995, a special election was held and voters approved two separate sales tax provisions, one of which was the adoption of an additional sales and use tax at the rate of ½% to be used for construction, renovation and operation of municipal buildings, acquisition and improvement of parks, promotion and expansion of manufacturing and industrial facilities, and other economic development purposes. As a result, the City created the DCEDC to administer these funds. The DCEDC was incorporated on April 28, 1995 as a nonprofit industrial development corporation under the Development Corporation Act of 1979 (Act). The DCEDC operates under a seven member Board of Directors appointed by the City Council. Each of the directors should be a resident of the City. No more than four members can be members of the City Council, officials of the City, or City employees. The Corporation is organized exclusively for benefiting and accomplishing public purposes of and to act on behalf of, the City of Duncanville

NET CHANGE IN FUND BALANCES- TOTAL GOVERNMENTAL FUNDS \$ 754,069

Amounts reported for governmental activities in the statement of activities are different because:

The net change in equity of the joint venture is not reported at the fund level; however it is reported at the government-wide level. (904)

The issuance of long-term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Refunding bonds issued	(2,395,000)	
Payment to refunding bond escrow agent	2,347,428	
Bond principal retirement	475,000	
Accrued interest on bonds payable	(983)	
Amortization of deferred charges on refundings	(5,293)	
		421,152

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES \$ 1,174,317

Legal Debt Margin Information
As of September 30, 2017
(Unaudited)

As a home rule city, the City of Duncanville is not limited by law in the amount of debt it may issue. The City's charter (Article 5, Section 1) states:

"In keeping with the Constitution of the State of Texas and not contrary thereto, the City of Duncanville shall have the power to borrow money on the credit of the City for any public purpose not now or hereafter prohibited by the Constitution and laws of the State of Texas, and shall have the right to issue all tax bonds, revenue bonds, funding and refunding bonds, time warrants and other evidence of indebtedness as now authorized or as may hereafter be authorized to be issued by cities and towns by the laws of the State of Texas."

Article 11, Section 5 of the State of Texas Constitution States in part:

"but no tax for any purpose shall ever be lawful for any one year, which shall exceed two and one-half percent of the taxable property of such city"

The tax rate at September 30, 2017 is \$.758447 per \$100 of assessed valuation with assessed valuation being 100% of market value.
