Vickie Sloan  
Building Inspections Administrator

I have been the City's Building Inspections Administrator for almost six months, with the responsibility of managing building permit applications and plans. My primary tasks involve processing, reviewing, and issuing permits while delivering exceptional customer service.

Above all else, I cherish my team. I feel great gratitude for the opportunity to work alongside such skilled individuals. We bring our own distinct qualities to the team, which not only reduces stress but also makes everything run smoothly.

My highlight about being a Duncanville employee is contributing to the City's progress in transitioning to an exclusively online permitting system.

Among recent achievements in my role, I am most proud of how quickly I have adapted to the current permitting system from the Amanda system I had used in the City of Arlington for nearly eight years. Additionally, I was able to effectively train our newest team member - Erin!

A fun fact about me is I own two businesses: Notary services with Sloan & Sloan Signing Services and Fingerprinting Business and Inspections. I also enjoy in-home inspections, whether it's for investment properties or multi-million-dollar residences. It's a rewarding experience that allows me to appreciate the beauty within these properties and engage with successful individuals.
